		IRE FIGHTING MEASURES				
	Flash Point:	IRE FIGHIING MEASURES	52 E (11 C) TOC			
		Flash Point:52 F. (11 C.) TOCAuto-Ignition Temperature:N/A				
	Flammable Limi	-	IV/ A			
	Lower Limit:		Explosive Limit	6.0		
			(LEL):			
	Upper Limit:		Explosive Limit (UEL):	36.5		
	g Media: f r e	Extinguishin Use halon replacement or carbon dioxide extinguishers or alcohol g Media: foam for small fires. Water spray or fog can cool fire but may not be effective in extinguishing fires. Large fires should be extinguished with alcohol foam. Use water spray to cool containers exposed to fire. Containers may explode in heat or fire.				
	Unusual Fire and Explosion Hazards:	Dangerous fire and explosion hazard when exposed to heat or flames. Methanol is extremely flammable and forms explosive mixtures with air. Methanol vapors may travel considerable distance to a source of ignition and flash back.				
	Special Fire	Wear NIOSH approved	SCBA respirator in t	the positive pressure		

Fighting mode and chemical protective clothing. Procedures: General Information: Flammable Limits: 6.0 to 3635 SECTION 6 - ACCIDENTAL RELEASE MEASURES Small Spill: Remove sources of heat or ignition, provide adequate ventilation, contain leak using absorbent, inert, non-combustible material. Large Spill: Contain spill, transfer to secure containers. In the event of an uncontrolled material release, the user should determine if release is reportable under applicable laws and regulations. SECTION 7 - HANDLING AND STORAGE Handling: See other sections of MSDS. Storage: See other sections of MSDS. SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION GENERAL HYGIENE Use normal hygiene practices. CONSIDERATIONS: OTHER Methanol waste and material contaminated with methanol would be PRECAUTIONS: regulated as a hazardous waste material under the hazardous waste number U154. ENGINEERING CONTROLS: Local Exhaust: Provide local ventilation to maintain exposure levels below recommended exposure limits. Mechanical (General): In confined spaces, mechanical ventilation may be required. Special Ventilation: N/A Other Ventilation: N/A PERSONAL RPOTECTIVE EQUIPMENT Eyes/Face: Use splash proof chemical, safety goggles or appropriate full-face respirator. Contact lenses should not be worn when working with this chemical. Skin: Use natural rubber or neoprene gloves as required. Do not use air purifying respirator. Use NIOSH approved Respirators: respirator approved supplied or self contained respirator. Respirators must be selected based on the airborne levels found in the workplace and must not exceed the working limits of the respirator. Other Protective If there is a possibility of exposure of an individual's body Clothing/Equipme to methanol, wear body covering work clothes to avoid nt: prolonged or repeated exposure. SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES Appearance/Odor: Yellow liquid, solvent odor рН: N/A Vapor Pressure: (MM GH): 97.0 Vapor Density (Air=1): 1.1 Evaporation Rate: N/A Viscosity: N/A Boiling Point: 148 F. (65 C.) N/A Freezing/Melting Point: N/A Decomposition Temperature: N/A Solubility in Water: Soluble

Product is flammable, keep away from sources of ignition, combustibles, oxidizing material and acid. Store in an area equipped with automatic sprinklers or fire extinguishing system. Empty containers contain product residues; assume empty containers to have the same hazards as full containers.

SECTION 10 - STABILITY AND REACTIVITY Chemical Stability: Stable: Yes

Conditions to Avoid: Store in a well ventilated place away from sources of ignition, combustibles, oxidizing materials and acid.

Incompatibilities with Other Materials: Strong oxidizing agents, aluminum, zinc, or metals that displace hydrogen, rubber and rubber based coatings, chromic anhydride, lead perchlorate and perchloric acids.

Hazardous Decomposition Products: Excessive heating and/or incomplete combustion will produce carbon monoxide.

Hazardous Polymerization: Hazardous Polymerization May occur: No

SECTION 11 - TOXICOLOGICAL INFORMATION No data available

SECTION 12 - ECOLOGICAL INFORMATION No data available

SECTION 13 - DISPOSAL CONSIDERATIONS Dispose of product in accordance with local, state and federal regulations. Before attempting clean up, refer to other sections of MSDS for hazard warning information.

SECTION 14 - TRANSPORT INFORMATION Transportation Information: Shipping Information (CFR 49 and IMDG): Proper Shipping Name: Gasoline Additive, N.O.I. DOT Hazard Class: Consumer Commodity, ORM-D DOT UN Number: None required

Section 311 (b) (4): Requires discharges of crude oil and petroleum products in any kind or form to waters must immediately be reported to the National Response Center at (800) 424-8802.

SECTION 16 - ADDITIONAL INFORMATION

Disclaimer: Information presented herein is believed to be factual, as it has been derived from the works and opinions of persons believed to be qualified experts. However, nothing contained in this information is to be taken as warranty or representation for which the Gold Eagle Co. bears legal responsibility. The user should review any recommendations in the specific context of the intended use to determine whether they are appropriate.

Prepared by: Mike Profetto

The information contained in this MSDS was obtained from current and reliable sources, however, the data is provided without any warrenty, expressed or implied, regarding its correctness or accuracy. Since the conditions or handling, storage and disposal of this product are beyond the control of Imperial Supplies LLC, Imperial will not be responsible for loss, injury, or expense arising out of the products improper use. No warranty, expressed or inferred, regarding the product described in this MSDS shall be created or inferred by any statement in this MSDS. Various government agencies may have specific regulations regarding the transportation, handling, storage, use, or disposal of this product which may not be covered by this MSDS. The user is responsible for full compliance.
